As a third-year student of Applied Computer Science at Jagiellonian University, I have developed a robust foundation in software development principles, underscored by practical .NET and Java experiences, particularly with the Entity and Spring framework in creating RESTful APIs. At SoftServe, I have cultivated a proficiency in agile development and a commitment to writing clean, maintainable code. My internships have equipped me with hands-on skills in team collaboration and problem-solving. Keen to leverage my technical knowledge, I am eager to join a forward-thinking team where I can apply my skills and continue to evolve as a software developer. Additionally, I have explored programming in Wolfram Mathematica Language, which complements my wide-ranging programming expertise.

Skills

C# | .NET | Amazon Web Services | GCP | JetBrains | Java | Spring | RESTful API | Python | C++ | Windows Forms | MVC | T-SQL | MS Office

---

Experience

04.2022 – 09.2022
